Aptos Sales Audit for Grocers

Optimize data management down to the department with the leader in Unified Commerce

Sales data is especially complex for grocers in the age of omnichannel.

And it will only become harder. Managing large volumes of cash and transactions Navigating an endless array of discounts. Aggregating data for diverging assortments across departments, regulations and banners.

Enter Aptos Sales Audit. Our industry-leading solution makes it easy and automatic to capture, clean and consolidate transaction data from your unique range of channels, countries, currencies and data types. Simplifying complex data so you can run your front office at the speed of the business.

Enrich core systems from Merchandising to Accounting. Optimize store performance and automate loss prevention. Move accurate and timely data downstream. Aptos Sales Audit gives you firm control over your transactions, full confidence in your data integrity and a firm grasp on the best business decisions.

CAPABILITIES

Omnichannel Auditing

- Centralized transaction database
- Extensive reporting capabilities
- Store performance analysis tools
- Multi-country, currency, tax, regulation and banner support
- Cloud or on-premise deployment options
